

Canadian Healthcare Convention Calendar: 2012

INTRODUCTION

We are pleased to announce the *Canadian Healthcare Convention Calendar: 2012*, which contains information about key conventions and conferences in the healthcare field in Canada. Publication of this calendar has become an end-of-the-year tradition for NAS Insights and affords you the opportunity to begin scheduling your recruitment visits for the upcoming year. If you are unable to attend a conference, many associations accept recruitment advertising in their convention programs. A call to your local NAS office can get you the details.

The calendar contains the names, dates and locations for conventions and conferences in the healthcare industry. Information is organized by both medical subject categories and chronologically. Due to space limitations, we are not able to include the many provincial conventions that take place each year; however, NAS Insights does monitor many of these conferences. Please call your local NAS representative if you have any questions regarding other events.

Some organizations had not finalized the exact dates or locations of their conventions at the time this report was published. In these instances, we have provided the information that was available. Also, dates and locations of events are subject to change by the sponsoring organization.

As always, we at NAS are pleased to be of assistance to our clients. We have tried to make the calendar as thorough and accurate as possible. If you have any comments or suggestions, we would appreciate your input.

December 2011
